Congratulations to  
both for understanding  
the Value of  
Intellectuals in  
India and abroad

Watchwords of Baba's philosophy are Satya, Dharma, Shanti and Prema.

These four pillars of Baba's philosophy yield the four ideals of higher Education.- **Knowledge, Skill, Balance and Insight or Vision(Intution)**

One has to develop “knowledge” into “**skill**.” But instead turning “knowledge” into skill.” we remove “S” and make it “**Kill**.” When we Will kill “Knowledge” the “Balance” gets upset and when “Balance” gets upset, instead of “Insight” or “Vision,” we have “Outsight.” Remember who ever develops “Insight” develops “knowledge.”

**The Theory of quarks and gluons is Called Quantum chromo dynamics, or QCD, QCD is generalisation of Quantum Electrodynamics (QED)**

**Brief History of Time ( Relation between Universe Man and Gene Prof. Stephen Hawking :** However if we do discover a Complete Theory, it should in time be understandable In broad principle by everyone, not just a Few scientists. Then we shall all philosophers, Scientists and just ordinary people, be able to Take part in the discussion of the question Of why it is that we and universe exist. If we Find the answer to that, it would be the triumph Of human reason for then we would know the **Mind of God.**

- **Our Scientific Work is Greatest Discovery cum Invention of this Century**

# City researcher had predicted tidal disaster

Sravani Sarkar  
Bhopal, January 7

A BHOPAL based researcher, who claims to have developed a method to predict natural and man-made disasters, had warned Indian authorities about sea tides lashing Chennai well in advance of the Tsunami disaster, albeit without any response. The warning letter had been sent to none other than the President Dr APJ Abdul Kalam on April 16, 2004 and to Chief Minister of Tamil Nadu J Jayalalitha as early as on October 2, 2003.

The researcher V K Sonakia, Deputy Director with State Department of Industries, had written to the President warning that sea tides might cause disaster at coastal cities like Chennai and Mumbai and also that a major earthquake might cause huge losses in the Tehri-Garhwal region within a year (of the writing of the letter). Though Sonakia received response from the President's office regarding another part of the letter (pertaining to prediction of air crashes), the warning of sea-tide was seemingly ig-

V K Sonakia

nored.

Not only this, Sonakia had written to the Tamil Nadu Chief Minister Jayalalitha as early as in October 2003, requesting the Chief Minister to draw out a disaster plan to mitigate various disasters including one caused by sea tides in Chennai.

Sonakia, who had also predicted Bhuj earthquake and danger to Bhakra Nangal dam, well in advance, lamented while talking to Hindustan Times that the authorities mostly ignore his claims and warnings, though there are more than ten instances where his predictions about major disasters have proven to be correct. It may be mentioned that Sonakia had addressed

Confidential

To,  
Honourable Dr. APJ Abdul Kalam  
President of India  
Rashtrapati Bhawan  
New Delhi.

Subject: Method Developed to detect-predict in advance Aircrashes (upto date progress).

Using our system, we successfully detected & predicted following 2 Major events before, they happened in year 2001 :-

PAST PREDICTIONS :-

(1) Biggest Earthquake in India (News cutting enclosed)  
Many letters/ faxes were sent to Ministry of Science & Technology (we have proof in form of speedpost, fax receipt/Regd post) including detailed letter to PMO Office about method developed on 20/1/2001 (copy enclosed) Annexure-2B & to CM of Gujarat, but we got no reply from Government side.

(2) Threat to Bhakra Nangal\* Emergency like situation in India.  
(13th December parliament attack)  
We informed Indian Army (Local Intelligence unit) about threat to country before attack on parliament & Bhakra Nangal, which prediction came true & ISI man was caught having plan to blow up Bhakra Nangal (Letter written to chief of Army enclosed & Annexure-3C)

"MOTHER OF ALL INVENTIONS"

The method developed by us is "Mother of all inventions", and is unified field theory based camera to detect Manmade (WTC USA like event) Natural disaster one year in advance.

Future predictions

In coming time we can successfully detect & predict year of disasters of 4 major event in India :-

(1) Year of Earthquake in Tehri Garhwal  
Its impact on 7 states including Delhi Bhakra Nangal (paper cutting enclosed) Direction of river Ganges will change from East to West?

(2) Year of sea tide on coastal town like Mumbai - Madras  
(Letter Department of Oceanography enclosed)

(launched in 2000 where sunami threat to bombay & chennai)  
can be predicted in advance (अवश्य देखें)

## City researcher had predicted tidal disaster

a press conference in Bhopal warning about the Bhuj earthquake and also written to the then Gujarat chief minister Keshubhai Patel in October 2001 warning him of the impending disaster. The Bhuj earthquake hit on January 26, 2002.

Sonakia, who has already registered his method of detection (prediction) under the International Copyright Order (1999 number L 20881/2002), says that his method is set to revolutionise present scientific thinking. He said that his method is based on future imaging technique. It works on the concept of neural networking between the trio-force of cosmos, human body and the earth.

In simple words, Sonakia explained, there are some signs (in form of waves) given by nature and absorbed by the human body well in advance of disasters, the decoding of which (using the method developed by him) can predict the disasters.

Sonakia has already submitted his method for patenting and is expected to get the patent soon. Also his scientific pa-

per on the method was accepted at the SCI conference 2004 on 'Earthquake Hazard and Disaster Prevention' held at Florida in USA.

The researcher said that he has offered the services of his method to various agencies of Union and State governments, but with minimum response. He said that anyone could learn the method with proper training within a period of six months to one year.

Recently Sonakia's name has also been included in the Contemporary Who's Who of the American Biographical Institute for his research work.

International Copyright Order No.L-20881/2002

Under International Copyright Order L-20881/2002, We are giving extended abstract of Method developed to detect in advance Disasters :-

- 1. Major Theme**  
**Earthquake prediction research**  
"A method developed to detect in advance disaster (Like earthquake) in any part of world"  
Using Artificial Intelligence, Virtual reality, Bio-Metric Technology, Time Machine System, Cryptology based on chronology it is possible to decode messages sent by Cosmos/Atmosphere(Nature/Ionosphere) inform of different waves including Beta Waves which are absorbed in Human Body before any Earthquake.

Messages hidden in human body are decoded inform of satellite Signal, using Cryptology language, Decoded message are, read inform of ECG graph to read Peak Period of Heart Attack/Heart Stroke (i.e. Earthquake).

In form of Genomic stress prints/pattern, the human body receives stress messages which are to be decoded enmass by using Bio-Metric Technology and analysing Genomic stress prints.

Based on the messages decoded in human body, The graph is drawn between X and the Y axis. X axis indicate year of earthquake like 2003-2004-2005 etc. and Y axis indicate, stress in earth (S & P Waves) which is decoded from human body working as Satellite.

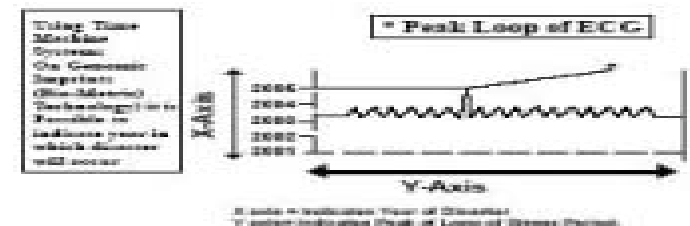

The Peak Loop of Y axis indicate maximum stress in form of wave which will be released by earth in form of Earthquake and X axis indicate year of earthquake.

The invention is non-instrumental method which can be converted into instrumental form (Machine Form) at the cost of borrowing company/department/Nation in future.

The Invention is new useful, Commercial, can be borrowed

by any country which want to detect disaster in advance.

### ECG Type Graph for Disaster

Applying Bio-Metric Technology & Cryptology on Human Bodies Stress period, (Earthquake) can be detected in form of ECG Graph.

Peak Loop of ECG Indicates, Stress period & year of disaster. Stress period indicate S& P Waves emitted by earth during time of Earthquake.

Graph is part of international copyright order L-20081/2002

# What is Relation Between Brain Mind and Soul

• Brains is biological Instrument for  
Receiving message recording  
Storing information and recalling  
The facts when needed but it  
Acts as a control room and  
Reference library not a controller  
Or librarian.  
Mind and intellect are not internal  
Organs but faculties of the soul  
. Higgin Bosan or Neutrino is part  
Of soul ?

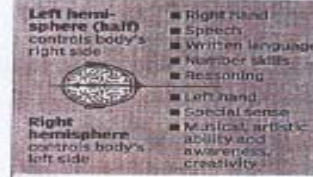

System Developed by us proves  
Presence of consciousness in  
Nature's Activities

## Stroke and its effect

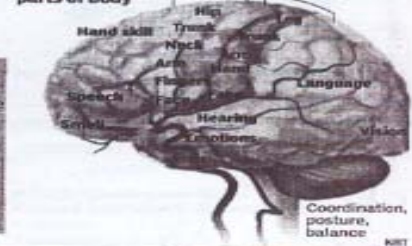

A stroke occurs when the brain's blood supply is interrupted and lack of oxygen begins to damage brain cells; a severe stroke can be fatal

### Symptoms depend on stroke location

Different regions of the brain handle different functions; these diagrams show the abilities that can be impaired by strokes at different sites

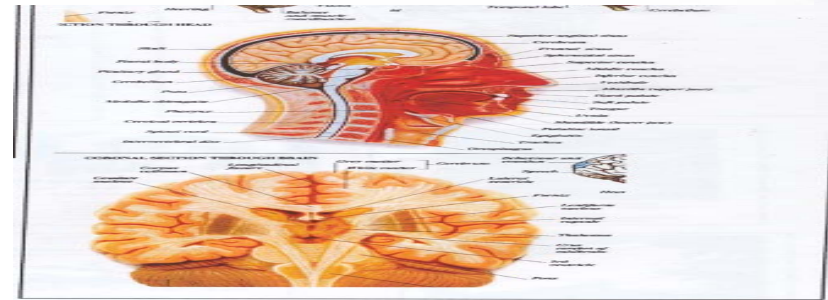

### Muscle control in parts of body

Warning signs  
■ Difficulty in walking  
■ Mood disorders  
■ Memory loss  
■ Mental impairment

## Brain

THE BRAIN IS THE MAJOR ORGAN of the central nervous system and the control centre for all the body's voluntary and involuntary activities. It is also responsible for the complexities of thought, memory, emotion, and language. In adults, this complex organ is a mere 1.4 kg (5 lb) in weight, containing over 10 thousand million nerve cells. Three distinct regions can easily be seen – the brainstem, the cerebellum, and the large cerebrum. The brainstem controls vital body functions, such as breathing and digestion. The cerebellum's main functions are the maintenance of posture and the coordination of body movements. The cerebrum, which consists of the right and left cerebral hemispheres joined by the corpus callosum, is the site of most conscious and intelligent activities.

**Knowledge Commission** is brain child

विक्टोरिया (भास्कर न्यूज)। अधिकांश डरावनी फिल्मों और भूत-प्रेत वाले धासवाहिकों में छठी इंद्रिय द्वारा घटित होने वाली बात का पूर्वाभास होता दिखाया जाता है। अब एक अध्ययन से यह सिद्ध हो गया है कि छठी इंद्रिय की बात सिर्फ़ कोरी कल्पना नहीं, बल्कि वास्तविकता है।

यूनिवर्सिटी ऑफ़ ब्रिटिश कोलंबिया के रॉन रेंसिक ने एक अध्ययन कर पाया कि छठी इंद्रिय के कारण ही हमें होने वाली घटनाओं का पूर्वाभास होता है। ऐसा माना जा रहा है कि अब लोगों की छठी इंद्रिय को और सक्रिय करने का प्रशिक्षण देना शुरू

किया जाएगा, ताकि वाहनों के कारण होने वाली दुर्घटनाओं में कमी हो सके।

रेंसिक ने बताया कि छठी इंद्रिय जैसी कोई भावना तो है और यह सिर्फ़ एक अहसास नहीं है। यह वास्तव में होशो हवास में आया विचार या भावना है जिसे हम देखने के साथ ही महसूस भी कर

सकते हैं और यह हमें घटित होने वाली बात से बचने के लिए प्रेरित करती है। उन्होंने बताया कि करीब एक तिहाई लोगों की छठी इंद्रिय काफी सक्रिय होती है और उन्हें इसका पूर्वाभास हो जाता है।

The Electromagnetic wave constitutes integral part of all cells / God Creations . Matter is spirit in the lowest level and spirit is matter in its highest level (Madam Blavatsky) Theosophist)

# The Contemporary Who's Who

2004

Who's Making A Difference

April 30, 2004

Mr. V. K. Sonakia  
A-11 Padamanabh Nagar  
Bhopal 23 INDIA

Dear Mr. Sonakia:

Dr. Daya Shanker has recommended you for inclusion in **The Contemporary Who's Who**, a significant reference volume published by the American Biographical Institute. You are nominated for inclusion for your overall contributions to society, as well as your professional accomplishments. The Institute is an authority on the biographies of outstanding men and women having published over 125 separate volumes to date. Please return your biographical details on the enclosed questionnaire within 15 days of your receipt of this letter.

The selection process for **The Contemporary Who's Who** is straightforward: Nominations are received from professionals and acknowledged organizations throughout the world. The fact that you have received this invitation speaks volumes of the respect your peers have for you.

The enclosed leaflet further offers a substantial discount should you wish to reserve your own copy of **The Contemporary Who's Who**. Biographees are given pre-publication discounts on the 2004 Edition to be published later this year. Reserving the 2004 Edition makes you eligible for a complimentary **Certificate of Inclusion**. A distinctive **Wall Plaque** is also available to you as a commemorative honor of your inclusion in a major reference volume.

I congratulate you on your achievements that are plainly held in high regard among your contemporaries. I ask you again, please return your information within 15 days to assist our editorial staff. A proof of your entry will be sent to you prior to publication.

Sincerely,

J. M. Evans  
President  
American Biographical Institute

## Sea Tides & Floods

In year 1999, Devastating Seatide in Orissa washed out life of around 60,000 people & 2,50,000 cattles. Whether seatide will affect Island nations like Bombay, Madras (INDIA), Fiji, Singapore, Japan, Mauritius .

Such questions reply is possible, if our team is invited the countries officially.

**SNOW / FLOODS /  
RAINS**

In past, Dam Burst in Morvi Gujrat (INDIA) affected life of thousand of people. Similarly, we can conduct study about Narmada (MP) ,Tehri (U.P), Bargi (M.P), Bhakra Nangal (Punjab) & Tawa Dam (M.P) INDIA. With the help of system developed by us, it is possible to save life of millions of people by forcasting Dam Burst event in advance.

**SEA TIDE /El Nino  
Typhoons/Hurricanes**

In Current year 2000, Floods have badly damaged life & property in Chile /Mexico/ Venezuela/ N.Wales (Australia), South Africa.

**It is possible to  
predict in advance  
incoming Sea  
Tide, Floods &  
Possibility about  
Dam burst like  
Bhakra Nagal.**

# Century's biggest quake in India within 6 to 8 months

**Mail News Service**  
**BHOPAL** The biggest earthquake of the century would occur in India within 6 to 8 months. This was predicted by Vipin Kumar Sonkiya and his group at a press conference on Sunday. Sonkiya said that during the last year of this century earthquakes would occur in all countries and a massive earth-

quake will also occur in India. He said that his group has found a means through which information can be received in advance for earthquake mines and railway accidents.

While speaking about his system he said that his technique does not need any instrument and his predictions will be as accurate as

stroke charge shown by ECG machine before a heart attack.

While answering about his predictions for a massive earthquake within 8 months in India he said that the group had asked ten thousand people from different parts of the country to fill questionnaires and from data so obtained they have arrived.

Contd. on page 7

Contd. from page 3

with this conclusion. He said that it is the cheapest method to find out about earthquake. Sonkiya said that his group has verified the system from the place where earthquake had occurred.

He also predicted that earthquake would occur in coal mines area of the state. This information was also given to chief minister a month back, he added.

## सदी का सबसे बड़ा भूकंप छः से आठ माह के बीच भारत में

(निज प्रतिनिधि)

भोपाल। सदी का सबसे बड़ा भूकंप 6 से 8 माह के बीच भारत में आयेगा। यह भविष्यवाणी विपिन कुमार सोनकिया एवं समूह ने की है।

अप्सरा रेस्टोरेन्ट में आयोजित प्रवक्ता याता में समूह के प्रमुख श्री सोनकिया ने बताया कि इस सदी के अंतिम वर्ष ११ देशों में भूकंप आयेगा जिनमें सबसे विनाशकारी भूकंप भारत में आयेगा। अपनी भविष्यवाणी का आधार बताते हुए श्री सोनकिया ने दावा किया कि उनके समूह ने ऐसा तरीका खोज निकाला है जिससे भूकंप, खान एवं रेल दुर्घटनाओं की पूर्व सूचना दी जा सकती है। पट्टि के बारे में बताते हुए उन्होंने कहा कि उनके समूह द्वारा विकसित तकनीक में किसी यंत्र की आवश्यकता नहीं होती। यह एक नैर उपयोग तरीका है जहाँ इस तरीके के उपयोग से की गई

से खरी उतरेगी, जिस तरह से हार्ट अटैक के पहले इसीजी में स्ट्रोक चार्ज बनता है। भारत में आगामी ८ माह के भीतर भूकंप की भविष्यवाणी के संदर्भ में बताया गया कि समूह ने देश के कोने-कोने में १० हजार नागरिकों द्वारा भरवाया है, उस डाटा के निष्कर्ष ही इस भविष्यवाणी का आधार है। विधि के खर्च के संबंध में बताया कि यह सबसे सस्ती विधि है। जिसमें प्रत्येक विधि विशेषज्ञ पर ५० से १०० रु. में प्रतिदिन का खर्च आता है।

श्री सोनकिया ने बताया कि उनके समूह ने पूर्व में जहाँ-जहाँ भूकंप आ चुके हैं वहाँ विधि का प्रमाणिकता की जांच की गई, जो सत्य निकली। उन्होंने म.प्र. कीयला खान क्षेत्र में भूकंप की त्रासदी होने की संभावना व्यक्त करते हुए कहा कि उनके समूह ने इसकी जानकारी मुख्यमंत्री को एक माह पूर्व दे दी है।गत दिवस छिंदवाड़ा जिले में जमीन धंसने की घटना की महत्वपूर्ण बताते हुए कहा कि यह घटना किसी

**Our picture universe (Page 10)**

1. A theory is good theory if it satisfies two requirement : It must accurately describe large class of observation on the basis of a model that contains only a few arbitrary elements and it must make definite predictions about the result of future observation.
2. Any physical theory is always provisional in the sense that it is only a hypothesis. You can never prove it. No matter how many times the results of experiments agree with some theory, you can never be sure that the next time the result will not contradict the theory.
3. The eventual goal of science is to provide a single theory that describes the whole universe.
4. It turns out to be very difficult to devise a theory to describe the universe all in one go. Instead we break the problems up into bits and invent a number of partial theories. Each of these partial theories describes and predicts a certain limited class of observations, neglecting effects of other quantities or representing them by simple sets of numbers.
9. वही सिद्धांत एक अच्छा सिद्धांत माना जाता है जो दो आवश्यकताओं की पूर्ति करता है एक तो यह कि वह उन बहुत सारी श्रेणी के प्रेक्षणों का सही-सही आकलन करे, जो उस माडल के आधार पर किए गए हों तथा जिसमें नियम बन्धन से मुक्त स्वेच्छाचारी तत्व बहुत ही थोड़े से हैं। दूसरे वह भविष्य के प्रेक्षणों के परिणामों का निश्चित पूर्वानुमान प्रस्तुत करें।
2. कोई भी भौतिक सिद्धांत इस अर्थ में सदैव अस्थायी होता है कि यह मात्र एक परिकल्पना होती है : आप इसे कभी सिद्ध नहीं कर सकते। इस बात का कोई महत्व नहीं होता कि परीक्षण के परिणाम कितनी बार किसी सिद्धांत के अनुकूल होते हैं। आप कभी भी इस बात से आश्वस्त नहीं हो सकते कि अगले बार परिणाम सिद्धांत का खण्डन नहीं करेंगे।
3. विज्ञान का सम्भावित लक्ष्य एक ऐसा सिद्धांत प्रस्तुत करना है जो सम्पूर्ण ब्रह्माण्ड की व्याख्या करता हो।
8. एक ही प्रयास में सम्पूर्ण ब्रह्माण्ड का वर्णन करने वाले सिद्धांत को बनाना बहुत कठिन है इसके स्थान पर हम समस्या को छोटे-छोटे टुकड़ों में विभाजित कर लेते हैं और बहुत सारे आंशिक सिद्धांतों का आविष्कार करते हैं। इन आंशिक सिद्धांतों में से प्रत्येक अन्य राशियों के प्रभावों की उपेक्षा करते हुए। उन्हें साधारण संख्या के समुच्चयों द्वारा व्यक्त करते हुए प्रेक्षणों की एक निश्चित सीमित श्रेणी की ही भविष्यवाणी एवं उनका वर्णन करता है।

## Theory of Relativity and theory of Quantum Mechanics

The General theory of relativity describes the force of gravity and large scale structure of the universe that is the structure on scales from only a few miles to as large as a million million (1 with twenty four zero after it) miles the size of observable universe.

### Quantum Mechanics

Quantum mechanics on the other hand deals with phenomena on extremely small scales, such as a millionth of a millionth of an inch. These two theories are known to be inconsistent with each other they can not both be correct. One of the major endeavors in physics today and major theme of this book is the search for new theory that will incorporate them both - a quantum theory of gravity.

Humanty's deepest desire for knowledge is justification enough for our continuing quest. And our goal is nothing less than a complete description of univese we live in.

### Chapter-4 The uncertainty Principle (Page 57)

Laplace suggested that there should be set of scientific laws that would allow us to predict everything that would happen in the universe.

The uncertainty principles signaled an end to Laplace dream of a theory of science.

In order to predict the future position and velocity of particle one has to be able to measure its present position and velocity accurately. (German Scientist Werner Heisenberg 1926).

### आपेक्षिकता का सामान्य सिद्धान्त

गुरुत्व बल एवं ब्रम्हाण्ड की विशाल संरचना की व्याख्या करता है अर्थात् कुछ मील से लेकर  $10^{24}$  (1 के बाद 24 शून्य) मील जितनी विशाल संरचना जो प्रेक्षणीय ब्रम्हाण्ड के आकार का द्योतक है।

### आपेक्षिकता का सामान्य सिद्धान्त

दूसरी ओर क्वांटम यात्रिकी एक इंच के 10 लाखवें हिस्से के 10 लाखवें हिस्से जितनी अति सूक्ष्मस्तरीय परिघटनाओं की व्याख्या से जुड़ी होती है। फिर भी दुर्भाग्यवश, ये दोनों सिद्धान्त एक-दूसरे से असंगतता रखते हैं - ये दोनों सही नहीं हो सकते। एक ऐसे नए सिद्धान्त की खोज जो इन दोनों सिद्धान्तों का समाविष्ट कर लें - गुरुत्व का क्वांटम सिद्धान्त - इस पुस्तक पुस्तक की प्रमुख विषयवस्तु और आज भौतिक विज्ञान के प्रमुख प्रयासों में से एक है।

विश्व की अन्तर्निहित व्यवस्था को समझने की सभी में एक उत्कट इच्छा रही है। आज भी यह जानने की प्रबल इच्छा रखते हैं कि हम यहाँ क्यों हैं और हम कहाँ से आए? और हमारा लक्ष्य जिस ब्रम्हाण्ड में हम रहते हैं, उसके पूर्ण वर्णन से कतई कम नहीं।

### अध्याय-4 अनिश्चितता का सिद्धान्त

लाप्लास ने यह तर्क विचारार्थ प्रस्तुत किया कि वैज्ञानिक नियमों का एक ऐसा समुच्चय होना चाहिए। जो उस अवस्था में जबकि हम एक निश्चित समय पर ब्रम्हाण्ड की पूर्ण स्थिति को जानते हों, हमें ब्रम्हाण्ड में घटित होने वाली किसी भी घटना का पूर्वानुमान लगाने में समर्थ कर दे।

अनिश्चितता के सिद्धान्त ने लाप्लास द्वारा प्रतिपादित ब्रम्हाण्ड के माडल सम्बन्धी उस वैज्ञानिक सिद्धान्त के टूटन के संकेत दे दिए थे जिसमें ब्रम्हाण्ड पूर्णतः पूर्व निर्धारित होता। यदि कोई ब्रम्हाण्ड की वर्तमान स्थिति का परिशुद्धता से मापन नहीं कर सकता तो वह निश्चित रूप से भावी घटनाओं का भी ठीक-ठीक पूर्वानुमान नहीं लगा सकता।

सन् 1926 तक जर्मन वैज्ञानिक वर्नर हाइजेनबर्ग ने अपने प्रसिद्ध अनिश्चितता के सिद्धान्त का निरूपण किया। किसी कण के वेग और उसकी भावी स्थिति का पूर्वानुमान लगाने के लिए हमें इसकी वर्तमान स्थिति और वेग का बिलकुल शुद्ध अनुमापन करने में समर्थ होना होगा।

**THEORY FOR EVERY THING**

**THEORY FOR EVERY THING**

**THEORY FOR EVERY THING**

**THEORY FOR EVERY THING**

**Prof. Stephen Hawking - A brief history of time**

**ब्रह्माण्ड व मनुष्य व जीन का सम्बन्ध**

**Relation between Universe Man and Gene**

However if we do discover a complete theory, it should in time be understandable in broad principle by everyone, not just a few scientists. Then we shall all philosophers, scientists and just ordinary people, be able to take part in the discussion of the question of why it is that we and universe exist. If we find the answer to that, it would be the triumph of human reason for then we would know the mind of God.

**Chapter-Conclusion (Pg.-185)**

**Prof. Stephen Hawking - A brief history of time**

**ब्रह्माण्ड व मनुष्य व जीन का सम्बन्ध**

**Relation between Universe Man and Gene**

बहरहाल यदि हम पूर्ण सिद्धान्त की खोज भी कर लेते हैं तब भी वह केवल कुछ ही वैज्ञानिकों तक ही सीमित नहीं रहेगा, बल्कि कुछ समय के अन्तराल पर यह एक विस्तृत एवं स्पष्ट सिद्धान्त के रूप में प्रत्येक व्यक्ति के लिए बोधगम्य हो जाना चाहिए। तब दार्शनिक, वैज्ञानिक तथा सामान्यजन हम सभी इस ज्ञान की परिचर्या में भाग ले सकेंगे कि हमारा तथा ब्रह्माण्ड का अस्तित्व आखिर क्यों है। यदि हम इस जिज्ञासा का उत्तर प्राप्त कर लेते हैं, तब यह मानव तर्कशक्ति की अन्तिम विजय होगी क्योंकि फिर हमें ईश्वर के मानस का बोध हो जाएगा। अध्याय - उपसंहार

# भूकंप की भविष्यवाणी असंभव नहीं

भोपाल, 21 अप्रैल (प्रकाश भटनागर)। प्राकृतिक आपदाओं का पूर्वानुमान या आभास जानवरों में तो होता है लेकिन क्या मनुष्य के शरीर में भी इसका कोई चिह्न देखा जा सकता है? ऐसी कोई खोज आज तक तो अस्तित्व में नहीं है, लेकिन उद्योग विभाग के उप संचालक बी.के. सोनकिया का दावा है कि मनुष्य में आपदाओं के पूर्व चिह्न प्रकट होते हैं। अपने इस दावे के आधार पर उनका यह भी दावा है कि वे समय रहते भूकंप की भविष्यवाणी कर सकते हैं।

रसायन शास्त्र में स्नातकोत्तर श्री सोनकिया एवं उनके कुछ साथियों ने आपदाओं का पूर्वानुमान लगाने की एक पद्धति विकसित की है। उनका कहना है कि भूकंप, समुद्री वृष्टान, बांधों का टूटना, परमाणु विकिरण या वायु दुर्घटनाओं का होने से पहले ही वे बता सकते हैं। इस पद्धति का नाम उन्होंने रखा है, 'सांख्यिक टाइम मशीन'। यदि

केंद्र या राज्य सरकार उनकी बातों पर भरोसा करे तो वे इस पद्धति को यंत्र रूप भी दे सकते हैं। उनका कहना है कि यह एक विशुद्ध वैज्ञानिक पद्धति है। वैदिक विज्ञान, अंकगणित, डर्मेटोग्लाइफिक्स, कृत्रिम बुद्धिमत्ता, काल्पनिक वास्तविकता और फोरेंसिक विज्ञान का उपयोग इस पद्धति में होता है। श्री सोनकिया कहते हैं कि किसी भी शहर के कम से कम दस हजार लोगों से डाटा लेकर कंप्यूटर पर विश्लेषण के आधार पर वे सटिक भविष्यवाणी कर सकते हैं। उन्होंने बताया, 23 अगस्त 99 को हमने भारत सहित ग्यारह देशों में एक साल बाद भूकंप आने की भविष्यवाणी की थी। श्री सोनकिया ने बताया कि भोपाल में एक पत्रकार चार्ता लेकर यह भविष्यवाणी की थी। भविष्यवाणी में यह भी शामिल था कि सर्वाधिक भीषण भूकंप भारत में आना है। वे तब के (शेष पृष्ठ 8 पर.)

## भूकंप की भविष्यवाणी...

अखबारों में छपी अपनी भविष्यवाणी की क्लिपिंग्स भी दिखाते हैं। उन्होंने इस संवाददाता को गुजरात के मुख्यमंत्री केशूभाई पटेल को 14 अक्टूबर 2000 को लिखा एक पत्र भी दिखाया। इस पत्र में उन्होंने लिखा था कि भावनगर में भारी भूकंप के संकेत हैं और मुख्यामंत्रियों से यह आग्रह किया था कि गुजरात में उनकी टीम को सर्वे के लिए बुलाया जाए ताकि वे यह पता लगा सकें कि भूकंप का कहर और किन शहरों पर टूटेगा। लेकिन श्री सोनकिया को इस बात का दुःख है कि समय रहते उनकी बात को महत्व नहीं दिया गया। मानव संसाधन मंत्रालय में उनकी इस पद्धति का कापीराइट है और इसका नम्बर है- 842/99/ वे इसका पेटेंट कराना चाहते हैं लेकिन यह तब तक संभव नहीं है जब तक केंद्र या राज्य सरकार उन्हें आर्थिक सहयोग नहीं दे। क्योंकि यह खर्चीला काम है। भारतीय प्रशासनिक सेवा के पूर्व अधिकारी एम.एन. लुच ने श्री सोनकिया से एक प्रोजेक्ट रिपोर्ट तैयार करवाकर केंद्र सरकार को भिजवाई है। प्रधानमंत्री के भाजे और भाजपा विधायक दल के उपनेता अनूप मिश्रा ने भी इसे आगे बढ़ाने में योगदान दिया है। श्री सोनकिया का कहना है कि उनके इस प्रोजेक्ट पर राष्ट्रीय आपदा प्रबंधन समिति में विचार होगा। श्री सोनकिया का कहना है कि प्रकृति बहुत दयालु होती है और मानव भी इसका एक हिस्सा है इसलिए वह हमें भावी संकट से समय रहते चेताती है। वे बताते हैं कि प्रातः, डाटा का कंप्यूटर में विश्लेषण करने के बाद भविष्यवाणी वैज्ञानिक आधार पर उतनी ही खूबरी उतरेगी जिस तरह हार्ट अटैक के पहले ईसीजी में स्टोक साईट बनता है। उनका दावा है कि केंद्र या राज्य सरकार उनकी तकनीक को आगे बढ़ाने में यदि मदद करती है तो भविष्य में तकनीक का निर्यात कर देश और प्रदेश काफी पैसा कमा सकता है। इसके अलावा लाखों लोगों के सामने रोजगार का नया रास्ता भी खुलेगा। श्री सोनकिया का कहे हैं कि वे इस विधि का विस्तृत ध्येय तब तक नहीं दे सकते हैं जब तक कि इसका पेटेंट न हो जाए। बहुत से लोग उन्हें इस अभियान में गंभीरता से मदद कर रहे हैं तो बहुत से उद्योग विभाग के इस उप संचालक को एक सिरफिरे की सनक बताकर खारिज भी कर देते हैं। उन्होंने हिम्मत नहीं हारी है और वे उसी उत्साह से अपने अभियान में लगे हैं। वे कहते हैं यदि केंद्र या राज्य सरकार मदद कर दे तो भारत विश्व में भूकंप की भविष्यवाणी करने वाला इकलौता देश होगा।

From: "SCI 2004 Co-Chairing"

To:

Subject: You have been selected to serve as a co-chair for a SCI 2004 Session!

Date: Wed, 7 Jul 2004 12:00:03 -0400

Dear Dr. Sonakia V.K.

On behalf of the Organizing Committee of The 8th World Multiconference on Systemics, Cybernetics and Informatics July 18-21, 2004 Orlando, Florida, USA , it is my pleasure to inform you that it has been a honor for us to select you for the activity of the session where your paper was included in for its presentation.

The tasks for the activity are the following:

- 1.To decide the presentation time according to the number physically present authors, or co-authors, of papers to be presented in your session, and the time period of 2:30 hours provided to you in the Conference Program.
- 2.To try to maintain the presenters in the context of the presentation time allowed to them.
- 3.To decide, via consensus, the time period extension of your session period, especially in the case of late afternoon sessions, where you have the largest elasticity
- 4.To make a short presentation of the presenters.
- 5.To inform us about those papers who actually were presented.
- 6.To give us your opinion about the best paper(s) presented in your session, including your own paper.
- 7.If your session has two(2) co-chairs, we would like to have both opinions. It is not required to achieve a consensus about it. This is why you can list more than one paper as the best one(s), although only two (2) papers in total will need to be selected as best ones in the Session.

We would like to express our deep gratefulness for your support in the session activities. We would also like to remind you to approach the Conference Registration Desk at the Hotel to pick-up a document package that will guide you in your chairing role, as soon as you arrive to Registration Desk area at the beginning of the Conference.

Finally, we would like to encourage you to confirm us your participation (clicking on this link [here](#)) as soon as possible, so we can re-arrange the co-chairing assignments. In case that you would be unable to chair the session (click on the following link [here](#))

For any further questions or requests that you may have on this regard, please write us to the following address: [sci2004cochair@iis.org](mailto:sci2004cochair@iis.org).

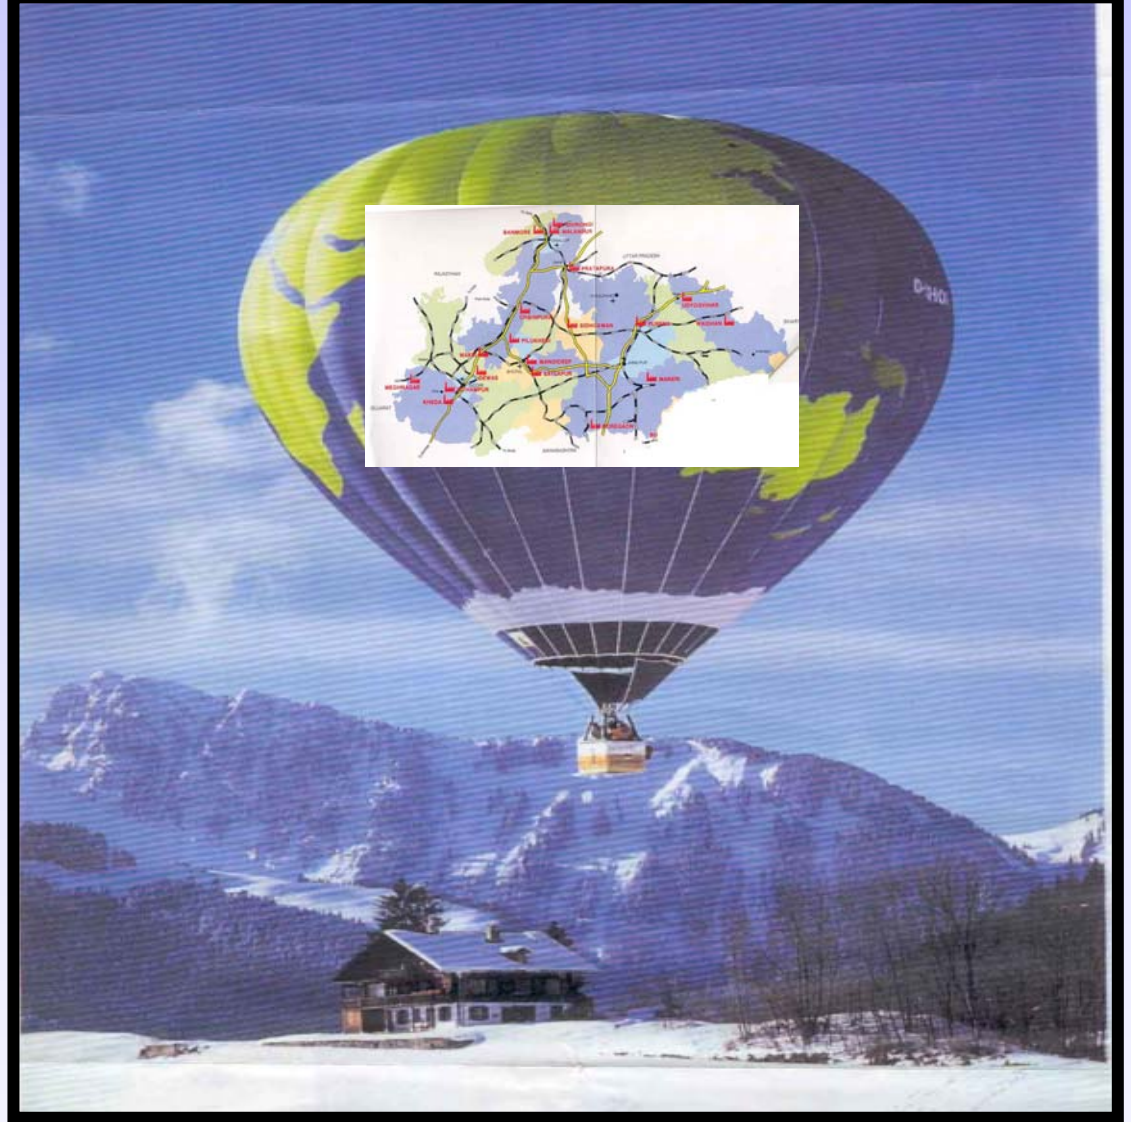

Best Regards

Nagib Callaos

SCI 2004 General Chair
